1. You will need a smartphone or Web tablet from iOs 9.1 or Android 5.0 upwards. Download the free App from the iTunes or Google Play Store. Start the App.

2. Hang the front side of this 'Context Card' centrally on the door at home.

3. Scan the front side. Wait until a virtual door becomes visible. Next, slowly go some steps backwards while continuing scanning.

The new **ringo® door** superimposes your existing door on the display. Now you can see how nicely the **ringo® door** decorates your room.

Live. Virtual. At home. ringo®
